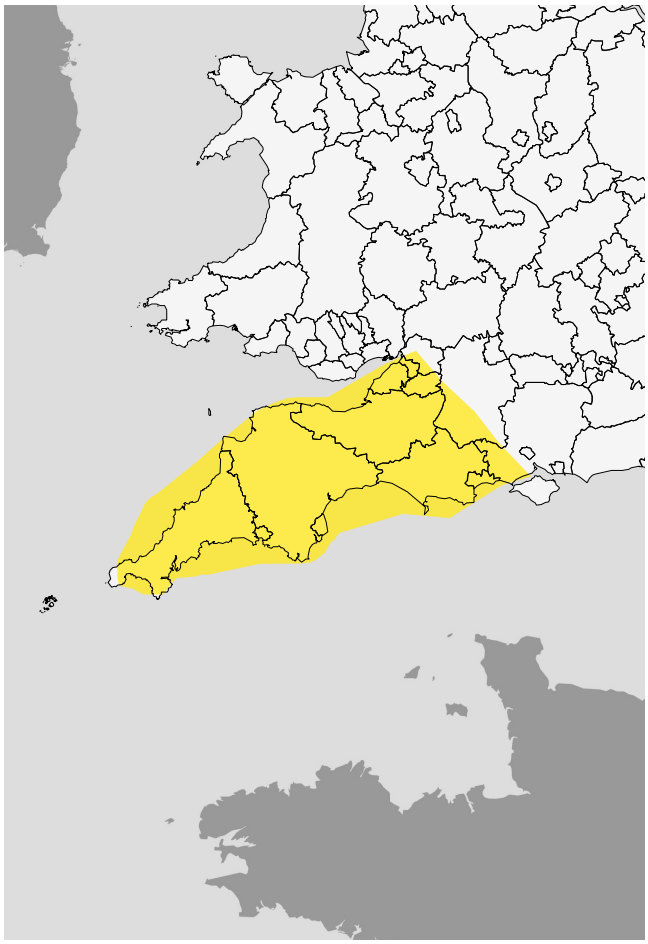
Yellow warning
Ice

Between
22:30 Fri 1 Dec 2023 and
10:00 Sat 2 Dec 2023



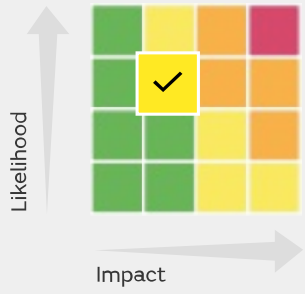
Icy patches are expected on untreated surfaces.

What to expect

- Probably some icy patches on some untreated roads, pavements and cycle paths
- Some injuries from slips and falls on icy surfaces

Further details

Icy patches are expected to form on untreated surfaces, especially where they remain damp following recent rainfall.



Medium likelihood of low impacts

Issued at 22:30 Fri 1 Dec, 2023

Further Details (continued)

What should I do?
Keep yourself and your family safe when it is icy. Plan to leave the house at least five minutes earlier than normal. Not needing to rush, reduces your risk of accidents, slips, and falls.
If you need to make a journey on foot or by bike, try to use pavements along main roads which are likely to be less slippery.
Give yourself the best chance of avoiding delays by checking road conditions if driving, or bus and train timetables, amending your travel plans if necessary.
Be prepared for weather warnings to change: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.
